

Dampney Protective Coatings

Thurmalox[®] 270 Series Stove and Hearth Accessories Coating Heat Resistant to 1200° F Standard and Custom Colors

Description

Thurmalox 270 series coatings are high temperature, fast drying formulations based on silicone resins and thermally stable pigments. They are formulated specifically to protect stoves (wood, coal, gas, pellet, etc.), hearth equipment and other metal surfaces operating at temperatures up to 1200° F (648° C). Thurmalox 270 series coatings provide outstanding adhesion, film integrity, color stability and thermal chock resistance throughout this entire temperature range.

Thurmalox 270 series coatings are available in a wide range of standard, and custom colors (see Thurmalox 270 series color card).

Recommended Uses

- Stoves (wood, coal, pellet, gas, etc.)
- Stove pipe
- Free-standing fireplaces and fireplace inserts
- Fireplace hoods, screens, and accessories
- Furnaces and heaters
- Engines, manifolds, mufflers

Features

- Withstands intense heat to 1200° F (648° C)
- Will not peel, flake or chalk
- Won't bleach or discolor
- Withstands repeated thermal cycling
- Dries for handling in 15 minutes
- Long-lasting
- Available 12 oz. aerosol cans for touch-up
- Resistant to scratching and marring

Not Recommended For

- Immersion service
- Direct contact with flame
- Cooking surfaces

Surface Preparation

1. To ensure optimum long term coating system performance, surfaces must be clean, dry and free from dirt, oil grease, salts, welding flux, oxides, old paint or other foreign matter.
2. Prepare surface by power washing, vapor degreasing, solvent cleaning or other chemical and mechanical methods.
3. Surface cleaning methods recommended will depend upon type of foreign matter to be removed and condition of substrate. Consult Dampney Technical Service for specific recommendations.

Mixing

Redisperse any settled pigments by stirring with a paint paddle followed by thorough mixing to a uniform consistency with an explosion-proof or sir-driven power mixer. Do not open containers until ready to use. Keep lid on container when not in use.

Application Guidelines

1. One coat of Thurmalox 270 series coatings at 1.0 mil (25 microns) is suitable for use on stoves and other hearth accessories.
2. For optimum protection apply two coats of Thurmalox 270 series coatings to a dry film thickness of 1.0 mil (25 microns) per coat. Total recommended dry film thickness is 2.0 mils (50 microns).
3. The number of coats of Thurmalox 270 series coatings needed depends upon service conditions of equipment.

Application Equipment

Apply by airless, conventional or HVLP spray methods. Application by roller is not recommended. Application by brush is also not recommended except for porous surfaces such as cast iron.

Thinning

Only thin Thurmalox 270 series coating with Dampney 100 thinner.

Note: Use of other thinners not approved by Dampney may hinder product performance and void product warranty.

Dry Time 70° F (21° C) 50% RH

Thurmalox 270 series coatings will air dry tack and thumb print free in 15 minutes and will dry hard in 8 to 12 hours. Allow 1 hour minimum dry time between coats at 70° F (21° C) and 1/2 hour minimum dry time between coats at 90° F (32° C). Coating has excellent recoat properties. Optimum film properties require a heat cure of 350° F (177° C) for 30 minutes.

Cleanup

Thoroughly flush spray equipment and hoses immediately after use with Dampney 100 Thinner. Dismantle spray equipment and clean parts, brushes and rollers with Dampney 100 Thinner.

Storage

Store in cool, dry place with temperature between 50°F and 100° F (10°C and 38°C). Keep container closed when not in use.

Precautionary Information

WARNING: Flammable Liquid and Vapor

Keep away from heat, sparks and flame. Vapors may cause flash fire. Do not breathe vapors or spray mist. Avoid contact with eyes, skin and clothing. Use with adequate ventilation during mixing and application. Wear an appropriate, properly fitted organic vapor cartridge-type respirator (NIOSH/MSHA approved) during and after application unless air monitoring demonstrates vapor/mist levels are below applicable limits. Follow respirator manufacturer's directions for

respirator use. Wash thoroughly after handling. Wear protective gloves, chemical safety goggles and impervious protective clothing. Use skin cream. In confined spaces it is required to use a positive pressure supplied-air respirator (NIOSH/MSHA approved). Use explosion-proof lights and electrical equipment. Use only nonsparking tools and equipment. Wear conductive and nonsparking footwear. Make certain all electrical equipment is grounded. Observe all safety precautions and follow procedures described in OSHA regulations. See Material Safety Data Sheet (MSDS) for complete precautionary and disposal information. If instructions and warnings cannot be strictly followed, do not use this product.

FOR INDUSTRIAL USE ONLY

Shipping Weights

	1 GAL.	5 GAL.	55 GAL.
Thurmalox 270	11 lb. (5.0 kg)	46 lb. (20.9 kg)	525 lb. (238-1 kg)
Dampney 100	9 lb. (4.1 kg)	42 lb. (19.1 kg)	

Thurmalox 270 series coatings are available in 12 oz. aerosol cans - 2 lb. (.9 kg).

The 12 oz. aerosol cans are available in a case of 12 - 12 lb. (6.4 kg).

TECHNICAL DATA

Characteristics	Thurmalox 270
Generic Type	Silicone
Color	Black See color card. Also available in custom colors
Finish	Low sheen and metallic
Temperature resistance	
Continuous	1000°F (538°C)
Intermittent	1200°F (649°C)
% solids by volume	18 (varies with color)
Viscosity	300-450 cps (varies with color)
Dry film thickness per coat	0.75 - 1.0 mils (19 - 25 microns)
Wet film thickness per coat	4- 5 mils (100 - 125 microns)
Theoretical coverage per gallon	289 mil. sq. ft. (27 sq. m. @ 25 microns)
Application temperature @ 50% RH	60-90° F (16-32° C)
Drying time @ 70° F (21° C) 50% RH	
To touch	15-20 minutes
To handle	20-30 minutes
To recoat	1-2 hours
Weight per gallon	
Thurmalox 270 Series	8.8 lb. (4.1 kg.)
Dampney 100 Thinner	7.1 lb. (3.2 kg.)
Flash point (Pensky Martens)	45°F (7°C)
Pot life	N/A
Shelf life	1 year
Volatile organic compounds	5.85 lb./gal. (696 g./l.)

WARRANTY
